

## **Choir Placement 2017-2018: PLEASE READ FIRST!**

My Dear Singers,

Each year, I think it is important to remind us all of the following:

A great deal of time, compassion, and thoughtfulness went into crafting our ensembles for next year. This is always a challenging selection process with complicated decisions; significant effort was put forth to place students in ensembles where their strengths will be highlighted and their potential for growth is greatest. YOU are all EXTREMELY IMPORTANT to this program, and we pride ourselves on making excellent music in all of our choirs. I am happy to meet with students individually to discuss your audition and provide feedback. An admired colleague of mine stated the following and I believe in every word:

"There are some who will celebrate and some who will battle disappointment. Either way, I encourage you to pause for a moment and react with grace and trust.

Reacting with grace means that you allow yourself to see the bigger picture for a moment. Put yourself in others shoes. Be a team player.

Reacting with trust means that you can see that whatever circumstances arise, you are singing with great people and making excellent music."

As I said before, the Lakeshore Choirs take pride in making excellent music in all choirs. Singing together is a communal artistic endeavor, an exploration of our humanity. We do so with RESPECT, DEDICATION, PASSION, the QUALITY, and with the intent to build relationships and find a sense of belonging in our Lakeshore Choir FAMILY. "Everyone has a journey ahead of them filled with challenges, leadership opportunities, and MUSIC."

Ms. Rohwer
